# Welcome

GeoNode is an open source platform for sharing geospatial data and maps.

If you have any questions about the software or service, join our [mailing list](#).

Need help? [Getting Started](#)

## 1 Layer

Click to search for geospatial data published by other users, organizations and public sources. Download data in standard formats.

[Add layers »](#)

## 3 Maps

Data is available for browsing, aggregating and styling to generate maps which can be shared publicly or restricted to specific users only.

[Create maps »](#)

## 3 Users

GeoNode allows registered users to easily upload geospatial data in several formats including shapefile and GeoTiff.
